Info Myanmar University
Higher National Diploma
2018 - 2020

SKILL

- Java / Spring Boot
- C# / .NET
- Azure CI/CD
- Frontend Development
- API Development
- Financial Systems
- Software Testing
- Management
- Troubleshooting

WORK EXPERIENCE

Partner Associates Int'l Co., Ltd. - Developer **2025-NOW**

Managed the entire software design process to boost quality and efficiency. Worked in collaboration with diverse teams, maintained essential tools, documented procedures, and advocated for improvements. Additionally, mentored both deployment and junior developers, all guided by data to enhance system performance.

NTT DATA MYANMAR - Junior System Engineer **2024-2025**

Developed system specifications for financial projects, ensuring compliance through reviews. Identified and fixed bugs while managing timelines and collaborating with the team. Provided updates to managers and clients, adhered to ISO 27001:2022 standards for data security, and maintained thorough documentation.

Myanmar Information Technology - Developer **2023-2024**

Created scalable Core Banking APIs and digital solutions in Java/Spring Boot. Improved reliability with Postman and JMeter, integrated third-party services, maintained data integrity, and helped with deployments.

ACE Data System - OJT **2023**

Contributed to both the development and maintenance of business applications utilizing Java, the Spring Framework, and RDBMS. Additionally, created a Job Recruitment and Offering Management System employing JSP, Thymeleaf, and JavaScript.

Mo Money Payment Myanmar - Intern **2022**

Gained practical experience in creating digital payment solutions utilizing Core Java and the Spring Framework. Managed databases and performed system integration to ensure smooth application performance.
