DEVELOPER

A dedicated and skilled Software Engineer with experience in designing, developing, and optimizing large-scale applications, primarily in Java and JavaScript. Proficient in frameworks such as Spring Boot and RESTful API development, with a robust understanding of database integration, security, and agile methodologies. Proven track record of mentoring junior developers and collaborating with cross-functional teams to meet business objectives and ensure high-quality deliverables.

PROFESSIONAL EXPERIENCE

NTT DATA MYANMAR Junior System Engineer

July 2024 - Present

- Developed and maintained system specifications (ED/ID/MUT, IT/ST/RT) for financial institution projects, ensuring alignment with client requirements.
- Performed thorough reviews of system specifications and testing plans to ensure accuracy and compliance.
- Identified and resolved bugs/errors, conducting root-cause analysis and implementing solutions to maintain system stability.
- Managed project timelines effectively, ensuring tasks were completed on schedule while meeting quality standards.
- Collaborated with team members to share knowledge, troubleshoot issues, and drive problem-solving efforts.
- Provided regular progress updates to managers and clients, ensuring transparent communication.
- Adhered to ISO 27001:2022 security standards, ensuring compliance and maintaining data security throughout development processes.
- Created and maintained comprehensive documentation, including system specifications, test plans, and bug/error reports.

Myanmar Information Technology(MIT) Developer

September 2022 - June 2024

- Led the design and maintenance of Core Banking APIs and Digital Financial Solutions using Java and Spring Boot, ensuring scalability, maintainability, and performance.
- Conducted rigorous testing using Postman and JMeter, improving application reliability and functionality.
- Coordinated with cross-functional teams to integrate third-party services and maintain data integrity.
- Provided on-site deployment and support, troubleshooting issues and supporting server maintenance.
- Mentored junior developers in API development best practices and provided guidance on deployment strategies.

**ACE Data System
On Job Training**

April 2022 - August 2022

- Contributed to the development and maintenance of business applications using Java, Spring Framework, and RDBMS.
- Developed a Job Recruitment and Offering Management System using JSP, Thymeleaf, and JavaScript.

**Mo Money Payment Myanmar
Internship**

December 2021 - April 2022

- Gained hands-on experience in developing digital payment solutions using Core Java and the Spring Framework.
 - Conducted database management and system integration to support seamless application performance.
-

EDUCATION
